GROUND COMBAT

Default right-handed mode. Triggers follow the hand holding the weapon.

LEFT CONTROLLER

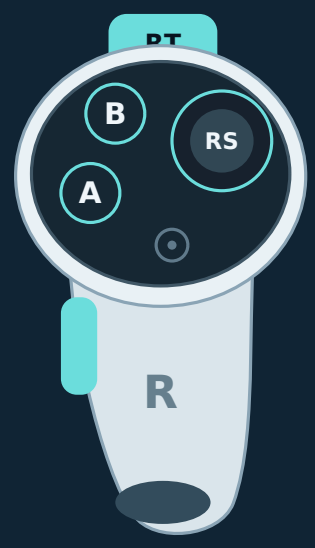

LT
Zoom with a right-held gun

LEFT GRIP
Grab / support / hold

LEFT STICK
Move; press to crouch

Y
Hold to recenter

RIGHT CONTROLLER

RT
Fire a right-held gun

RIGHT GRIP
Grab / keep holding

RIGHT STICK
Turn; click: grenade type

A
Jump

B
Interact / reload by context

ALWAYS WITHIN REACH

X + RT

Pause / resume

Press together. Release both controls after the pause action.

GRIP

Flashlight

Bring either hand beside the left side of your head, then press grip.

TRIGGERS

Aim and fire

Left-held gun: LT fires, RT zooms. Dual guns: each trigger fires its own gun.

GESTURES ARE THE DEFAULT

Swing the weapon hand to melee. Grab a chest grenade and release to throw. See poster 03.

LEFT-HANDED MODE

Right stick moves / clicks to crouch; left stick turns / clicks to change grenades. X jumps; Y interacts; A + LT pauses; hold B to recenter. Flashlight is beside the right side of your head.

WEAPONS & HOLSTERS

Either hand can draw, hold and stow. Keep gripping while you want to keep the weapon.

REACH. GRIP. HOLD.

1 Right shoulder
2 Right hip

Reach the labelled holster and press either free hand's grip. Keep that grip held to carry the weapon.

M = Magazine Zone, opposite your weapon holsters

EVERY GRIP HAS A PLACE

01 / STOW

Return to a holster

Release grip at a weapon holster to stow. Release elsewhere to drop.

02 / PICK UP

Make room first

Drop a carried weapon if both slots are full. Grip when the ground pickup prompt appears.

03 / TWO HANDS

Grip the support area

With your free hand, grip the weapon's support area. Release the trigger hand to carry by the support hand; regrip the handle to resume.

04 / DUAL WIELD

Use your free grip

Briefly hold the free hand's grip at a compatible pickup prompt. Each trigger fires its own gun. Drop or stow either gun independently.

HOLSTER STATUS

Grey weapon mesh = currently in use. EMPTY = no weapon in that slot. Free one hand before starting a manual reload.

LEFT-HANDED MODE

Weapon holsters move to the left hip / shoulder. The Magazine Zone moves to the opposite side. Either hand can still use either holster.

Unofficial PC VR mod. Bindings assume the supplied SteamVR profile and Halo defaults.

GRENADES & MELEE

Physical Grenades and Physical Melee enabled. These gestures replace the button attacks.

CHEST SUPPLY

LEFT / RIGHT always means your own body

LEFT CHEST

Plasma grenades

Grey mesh = none available.

RIGHT CHEST

Frag grenades

Chest types do not swap in left mode.

THROW WITH EITHER FREE HAND

01

GRAB

Reach a chest slot and hold grip.

02

THROW

Move your hand, then release grip away from the chest.

03

RETURN

Bring it back to its chest slot and release to put it away.

PHYSICAL ATTACKS

SWING

Weapon melee

Swing the weapon hand. Aim the melee with your head.

SWING

Energy Sword: normal attack

Swing the hand holding the sword.

TRIGGER

Energy Sword: trigger attack

Hold the sword-hand trigger first, then swing. RT right hand / LT left hand.

MELEE FEEL

Default swing threshold: 3.0 m/s. Native melee recovery still applies. Adjust the threshold and grenade strength in VR Settings > Weapons.

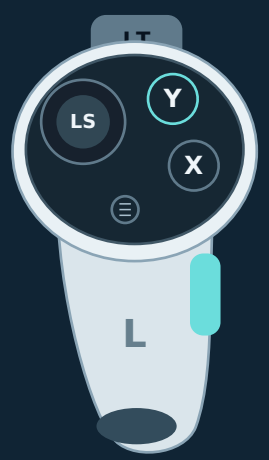

BUTTON FALLBACKS

Physical Melee OFF: X (left mode: A). Physical Grenades OFF: tap Y (left mode: B), unless that button is being used for manual reload. Hold still recenters.

MAGAZINE RELOADS

Manual Reload enabled. Keep holding the gun; free the other hand before you begin.

LEFT CONTROLLER

Y

Reload a LEFT-held gun

GRIP

Hold magazine / charging part

RIGHT CONTROLLER

B

Reload a RIGHT-held gun

GRIP

Hold magazine / charging part

ONE MAGAZINE, FOUR STEPS

01 EJECT

Tap gun-hand B / Y.

02 GRAB

Grip Magazine Zone.

03 INSERT

Seat at the opening.

04 RELEASE

Let go of the mag grip.

MATCH THE WEAPON

WEAPON	INSERTION	AFTER FIRING TO EMPTY
Battle Rifle	Below the weapon	Grip the rear-held charging handle; guide it forward or release grip.
Magnum	Below the grip	Grip the rear-held slide; guide it forward or release grip.
SMG	Side opening	Grip the charging handle; pull fully back, then return it or release grip.
Sniper Rifle	Below the weapon	Grip the charging handle; pull fully back, then return it or release grip.
Carbine	Top opening	Insert the new magazine. No separate charging step.

RELOAD BUTTONS NEVER SWAP WITH THE MODE

B always reloads a right-held gun; Y always reloads a left-held gun. Tactical reloads need no charge. Release the magazine grip before grabbing a handle.

SHOTGUN & HEAVY RELOADS

Manual Reload enabled. Fresh ammo comes from the labelled Magazine Zone.

SHOTGUN

LOAD Grip a shell at the Magazine Zone. Bring it to the top loading port, release grip and repeat.

PUMP After each shot, keep your support grip held. Move the pump back, then forward. No release and regrip is needed.

Loaded from empty? Pump before firing.

OPEN, INSERT, FINISH

WEAPON	PROCEDURE
Rocket Launcher	**1** Tap B (right-held) / Y (left-held) to open. **2** Grip each spent round at the opening; release to discard. **3** Grip fresh rockets at the Magazine Zone; insert one at a time. **4** Tap the reload button again to close.
Brute Shot	**1** Tap B (right-held) / Y (left-held) to open. **2** Grip fresh ammo at the Magazine Zone; insert at the rear port. **3** Grip and pull the charging handle, then return it or release.
Fuel Rod	Grip fresh ammo at the Magazine Zone. Insert it at the rear housing.
Needler	Uses its button reload: B for a right-held gun, Y for a left-held gun.
Battery weapons **Energy Sword**	No magazine reload.

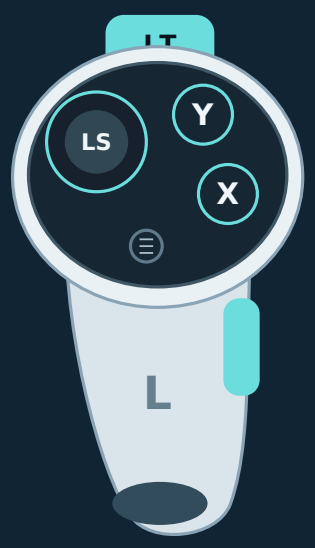

FREE HAND REQUIRED

Stow one gun before a physical reload while dual wielding. Keep the other gun gripped. The supply zone is opposite your weapon holsters.

VEHICLES & TURRETS

Warthog driver layout shown. Use the entry / exit prompt for vehicles and mounted turrets.

LEFT CONTROLLER

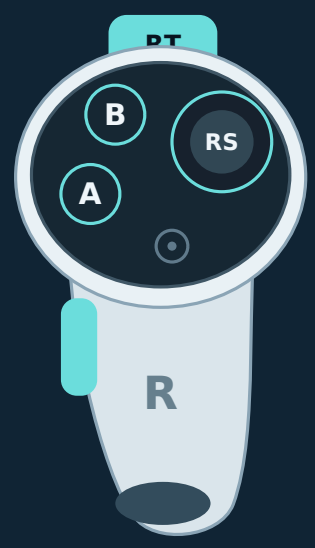

LT
Warthog: reverse

LEFT STICK
Warthog: steer

Y
Hold to recenter (right mode)

RIGHT CONTROLLER

RT
Warthog: accelerate

RIGHT STICK
Warthog: free look

B
Hold to enter / exit (right mode)

KNOW YOUR SEAT

DRIVER

Warthog

RT / LT and left-stick steering stay the same in either handedness mode. Right stick remains free look.

GUNNER / TURRET

Hold action to leave

Hold B at the exit prompt; left mode uses Y. Triggers operate the mounted weapon's native actions.

OTHER VEHICLES

Native vehicle controls

Left stick moves; right stick aims / turns. RT is primary, LT secondary (vehicle dependent). Left-handed mode mirrors these inputs.

ENEMY VEHICLE

Boarding attacks

During boarding: swing your RIGHT hand to melee; swing your LEFT to plant a grenade when that seat allows it.

COMFORT IN THE COCKPIT

VR Settings > Vehicles: choose first- or third-person view and adjust each vehicle's camera height / offsets. Entry and boarding recenter height and facing.

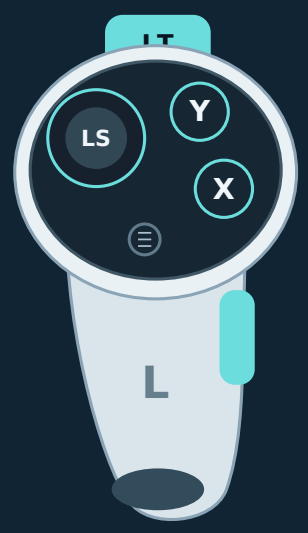

QUICK CONTROLS

Right mode: X + RT pause; hold Y recenter. Left mode: A + LT pause; hold B recenter; hold Y to enter / exit. Boarding hand roles stay right / left.

MENUS & COMFORT

Point with either controller. Press that hand's trigger to select an option.

LEFT CONTROLLER

LT
Select where you point

LEFT STICK
Navigate Halo menus

Y
Hold to recenter in menus

RIGHT CONTROLLER

RT
Select where you point

RIGHT STICK
Move menu cursor

A / B
A selects; B closes VR settings

GET COMFORTABLE

SETTING	WHERE / WHAT IT DOES
Turn style	Comfort: smooth or snap turning; adjust the snap angle.
World scale	Comfort: adjust the size of the world to your preference.
HUD / menu panels	HUD & Menus: adjust panel size and distance.
Handedness	Weapons: Left-handed controls and holsters.
Reload volume	Audio & Feedback: 0% mutes, 100% normal, 200% maximum.
Keep your changes	Save & apply. Reset to default restores ALL settings to the project baseline.

PAUSE & CUTSCENES

Right mode: X + RT pauses; hold Y recenters gameplay. Left mode: A + LT pauses; hold B recenters gameplay. Cutscenes allow looking around and turn-stick rotation. Menus use hold Y in either mode.

KEYBOARD & FOCUS

F6: toggle VR. F7: recenter. F8: capture diagnostics. After SteamVR or a focus change, release every button, grip and stick before resuming.
